Introduction

Building a successful project is contingent on the management capabilities of the company performing the work and always based on client satisfaction. Continuously building quality projects require a company-wide mind-set that unites all team members behind one main purpose-Building Excellence. At HICON, we believe integrity and high performance from the top; this is why our senior executives are involved in our projects from day one and stay involved until the final closeout.

Our team works with the owners, construction team, designers and engineers, with the detail that only specialists can provide, to plan, budget and schedule every aspect of your project. Once construction begins, sound management skills, seasoned field supervision and computer management technology work together with competent subcontractors and suppliers to keep your project on track. The result is a quality facility that is complete when promised, as promised

Our Mission I

To deliver safely any project, anytime, in any environment for the benefit of our customers shareholders, employees and the communities we serve.

Our Vision I

To be the leading construction service Providers and Employer of Choice by safely and consistently delivering successful and innovative capital projects and services anywhere in the world'. To that end, HICON motto or slogan is "Committed to Deliver."

Our Vision for the Future

TO CONTINUE BEING AN EFFICIENT
GENERAL CONTRACTOR WORKING
IN AN ETHICAL AND BALANCED
MANNER TO EARN THE PRIVILEGE
OF BEING THE GENERAL
CONTRACTOR OF CHOICE.

The following outlines how HICON Uganda Limited seeks to conduct itself internally as an organization, externally as company, and as an on-going active member of the local community

➤ **CLIENTS.**

we strive to meet and exceed our client's expectations to foster long-term partnerships.

➤ **EMPLOYEES.**

We value our staff and create an enjoyable work environment that allows personal fulfilment that leads to a loyal and productive work force.

➤ **SUB-CONTRACTORS.**

we treat our subcontractors and suppliers with respect to cultivate a team approach we apply experience with dedicated enthusiasm

➤ **COMPANY.**

We use value engineering, effective construction practices and hard work to deliver the construction.

Our core Values

- Uncompromising commitment to Quality, Health, Safety and Environment
- An open relationship with our employees based on mutual trust, respect, success and career development.
- Transparency, Accountability and Discipline in our business
- Best Risk Awareness
- Integrity in all we do
- Financial Responsibility to our stakeholders

OUR CULTURE

HICON culture begins with our people; we like to think of ourselves as one big family working together toward one goal- Building Excellence. Our mutual respect and a strong commitment to our clients and community. There is close friendship among the employees of this family-oriented company that adds value to their working and personal lives. We strive to maintain an open, family-like atmosphere in our offices and on our job sites. Like most families, our expectations are high. We recruit and retain only the most talented and enthusiastic employees, many of whom have been with HICON for past two years. We encourage teamwork and collaboration. We support and reward individual resourcefulness. We value problem solvers, effective communicators, and acknowledge the contributions and accomplishments of others - fellow employees as well as our project partners.

OUR COMMITMENT

A commitment is only as good as the company that makes it, building facilities are economical, reliable and efficient has been HICON commitment since 2015. Our team of construction professionals offer a single source solution for all of your construction related needs. Whether it is restoration, site preparation, a new facility or facility renovation, we have the experience and personnel to provide the highest quality construction on schedule and within budget.

SAFETY

We are committed to safety above all else, and this commitment is central to everything we do. Our proactive approach creates value for our clients and safeguards our most important asset; our employees. Our entire team is dedicated to maintaining a safety-focused and environmentally sound business; our safety culture is promoted by each member of our team through planning, implementing and evaluating safety practices on a daily basis of our works.

Our safety program is proactive and action -oriented; everyone from management to trades people is involved in making a zero incident workplace a reality. We use daily pre-task planning sessions, on-going safety inspections, weekly safety meetings, special equipment training and safety manual reviews to assist in attaining our goal of zero incidents. New employees are required to complete our new hire safety orientation program.

OUR SERVICE

Building trusting relationships with our clients by being responsive to their expectations and providing the highest quality possible is the cornerstone of our corporate culture. Our attention to our clients and all aspects of every project has resulted in long-term client relationships throughout the period that we have been in existence.

Over the years, HICON has been providing services under the Lump sum, Unit rate and Design-Build umbrellas, in addition to the traditional Agency Construction Management and General Contracting methods. You can trust that we have "been there-done that.", we understand the "ins and outs" of each project delivery method, and will apply our knowledge, lessons learned to your projects.

HICON practices open and honest communication, with our clients' trust a priority from the get-go. By being held accountable for our actions and offering complete transparency throughout the construction process, our clients have received not only higher quality projects on time and on budget, but also peace of mind that we acted as their agent with their best interests at heart.

Not sure, which construction delivery method is right for your project? We can offer construction guidance (we have a well-structured team that will help you out).

The list below gives a short description of our services, all of which are available no matter the construction delivery method you have chosen.

1) Pre-construction services.

- Pre-construction Estimating; we provide project estimating and a reliable cost model drawn from our extensive costing histories.
- Feasibility Studies; we analyse life cycle costs for building system alternatives.
- Scheduling; we develop project schedules showing timelines and expected completion projection dates.
- MEP Review; we evaluate evolving mechanical, electrical and plumbing system concepts and coordinate their installation services.
- Constructability Review; we help determine the ease and speed of the building process.
- Risk Management; we do control cost, schedule and owner objectives to mitigate risk.
- Market Analysis; we try to understand the unique requirements of your project in the context of market conditions and trends.
- Cost Control; we provide the most efficient design and construction methods to achieve value.
- Quality Control; Monitor methods, procedures and checks from start to finish with the goal of meeting established standards.

2) Construction Services

- Progress Monitoring; Monitor actual versus forecasted schedule/budget.
- Quality Control and Testing; Validation of actual to specifications.
- Labour Relations; Proactive resolution of potential issues.

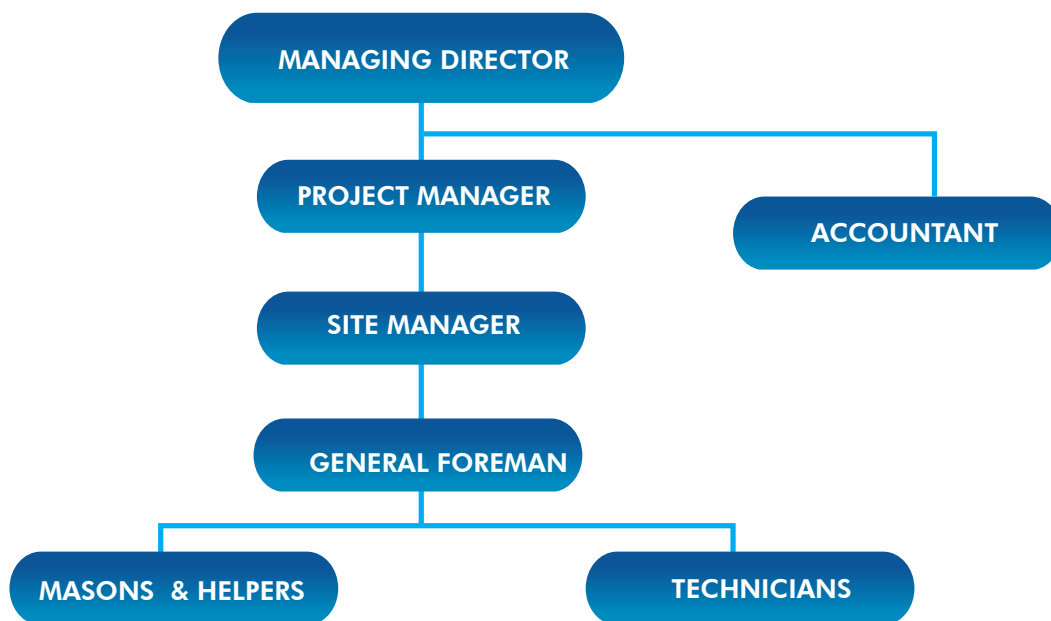

3) Post-Construction Services

- Commissioning; Ensure that building systems are designed, installed and activated according to owners' operational needs. O&M; Development of operations and maintenance instructions
- Final Closeout; Completion of punch-listed items
- Defects Walk through; Final verification of operational status. This ranges according to the agreed defects liability period with our clients.

LEGAL CONSIDERATIONS

HICON Uganda Limited is a private limited liability company registered with Uganda Registration Services Bureau (URSB). Besides, it complies with other statutory requirements governed by the constitution and other relevant LAWS of the Republic of Uganda such as the Building regulations set by the Association of Civil and Building Contractors' Association of Uganda.
